# Deborshi Dey

## Summary

I am a seasoned OSINT analyst with over four years of experience in detecting and countering misinformation that threatens social stability and political integrity, with a focus on global geopolitics and electoral dynamics. Skilled in Python, SQL, and Power BI, I excel at analyzing complex data to identify emerging threats and deliver actionable insights. Having led teams of 10+ analysts and collaborated with global teammates from diverse backgrounds, I thrive in high-pressure environments, leveraging my multilingual proficiency, leadership, and advanced analytical skills to address the impact of misinformation on political landscapes and drive strategic results.

## Experience

### Team Karimganj - Team Leader

Karimganj, Assam

09/2022 - Current

- Managed a remote team of analysts, leveraging diverse language proficiencies to enhance project outcomes
- Fostered an inclusive environment that facilitated seamless collaboration, resulting in successful project deliveries
- Delivered a wide range of reports including in-depth long form reporting, and succinct daily delivery reports
- Focused on misinformation screening across a variety of topics including political, social, religious, geopolitical, linguistic, and health
- Conducted OSINT analysis to identify potential threats related to misinformation in a wide range of countries, including Bangladesh, India, Indonesia, Iran, Ireland, Pakistan, Russia, Spain, Turkey, Taiwan, and the US

### Team Karimganj - Analyst

Karimganj, Assam

01/2021 - 09/2022
